Polyphony and Voice Management

Intro to Audio Tech 1
Jocelyn Kavanagh
Wednesday, October 13

Georgia Tech

Lesson Outline

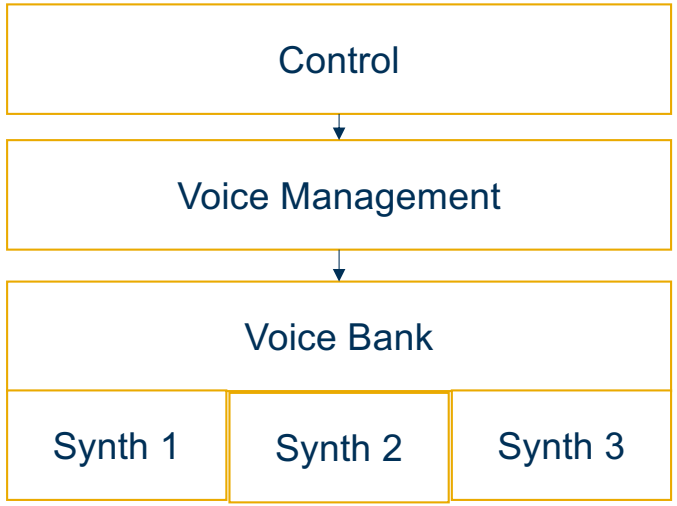
- Quiz 2
- Polyphony + Encapsulation
- Assignment 4
- Up Next…

Georgia Tech

Polyphony

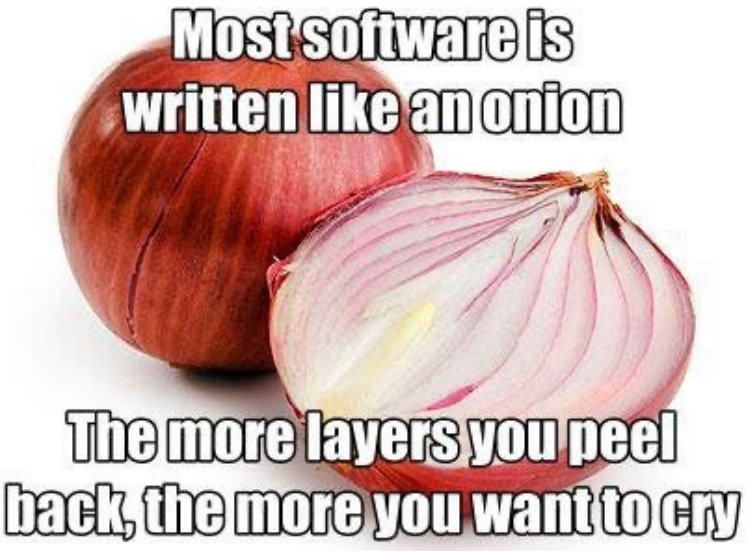
Polyphony

- “many voices”
- Multiple copies of the synthesizer for each voice
- Voice Allocation
- Voice Stealing



Encapsulation

- Bundle the data and methods of an operation
- Consistent, usable interfaces/functions
- Information hiding, modularity

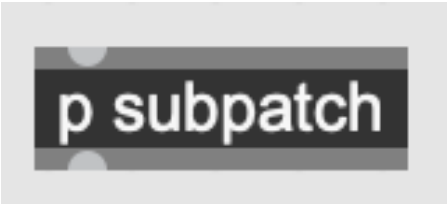


Polyphony and Encapsulation in Max

Georgia Tech

Encapsulation in Max

- Subpatches
- Inlets and Outlets
- Subpatches do not auto-update! If you make a change to one, you have to change all copies



Polyphony

- Each voice in polyphony needs its own synth
- Max can do voice allocation for us using either poly or poly~
- Both require encapsulation of synthesis engine

Assignment 4

Up Next…

- Readings and Supplements
- Assignment 3 due Friday at 11:59p
